Introduction to Artificial Intelligence:
What you need to know to get
started with AI

William Zain

Music Producer, Author, Distinguished Toastmaster, Distinguished Division Director!

Orange County, California, United States

Summary

I'm a former Technical Consultant with a passion for solving complex problems and delivering impactful solutions for business clients. After years of helping companies optimize and innovate, I've shifted gears to focus on the creative side of life.

Today, I channel my energy into music—composing, producing, and breathing life into soundscapes that awaken emotion and imagination. Music isn't just a hobby; it's the rhythm that drives my days and fuels my nights.

I'm also a published author. My latest book, Introduction to Artificial Intelligence, makes AI approachable for everyday users and professionals alike. You can find it on Amazon: <https://www.amazon.com/dp/B0FG18QJWF>.

When I'm not composing or writing, I'm exploring the world and documenting my journeys at <https://i-wish-you-were-here.com>, where I share travel guides, hidden gems, and inspiration for curious explorers.

Bellevue, WA

Helping our clients automate their processes using Nintex latest technologies like K2 Workflow, NWC, Kryon, RPA, and Drawloop.

Nintex is the global standard for process management and automation. Today more than 10,000 public and private sector organizations across 90 countries turn to the Nintex Platform to accelerate progress on their digital transformation journeys by quickly and easily managing, automating, and optimizing business processes. Learn more by visiting www.nintex.com and experiencing how Nintex and its global partner network are shaping the future of Intelligent Process Automation (IPA).

Calance

24 years 3 months

Technical Consultant

June 1995 - August 2019 (24 years 3 months)

Buena Park, CA

I was designing and building business processes using the latest version of K2 Workflow (BPM) technology.

Utilizing my AWS certification and experience as the acting primary admin for our AWS accounts. Duties include managing resources and costs as well as applying policies and providing guidance on best practices.

Other projects:

- Managed a website enhancement project for a major manufacturer client.
- Recently managed a project to integrate and existing dealer-facing website with the SAP ERP package.
- Design, build and deploy Document Management and Workflow enterprise solutions. Provide integration of Workflow to legacy systems using MS.Net technologies.
- Build multi-tier web applications using ASP.NET.

- Build websites using Drupal and WordPress.
- Assist in migrating from Legacy systems to SAP ERP package.
- As an Amazon Web Services certified solution architect and developer, I recently assisted in deploying the company website to AWS cloud.
- Build document scanning solutions utilizing Kofax Capture software and C#.

Technical Skills:

MS .NET technologies (C#, ASP.NET, ADO.NET, XML); Drupal; WordPress; MS SQL; Talend; Business Intelligence.

AWS architect; AWS developer; Microsoft Access; COBOL II; DB2; CICS; VSAM; Excel; Microsoft Project; PowerPoint; MS Word; HTML; Visio; K2 Workflow; Ektron CMS/DMS; Kofax Capture.
